Join us for a mid semester mini-symposium to discuss the design of 4 new urban precincts in Melbourne. What does it mean to design a new city within a city - what ideas are taken from the host culture and what is left behind? How can spatial design, planning and policy perpetuate a genuine idea of the local?

This event will be co-hosted by Mark Jacques' studio "Going Gowntown" and Mauro Baracco and Caitlyn Parry's studio on "Melbourne's Urban Innovation District"

WHERE: (100.10.Longroom). WHEN: Tuesday Night 5th September 6:30-8:00.
